

## 2021 Invisalign® Gallery | GP Summit Case Shoot-out FAQ

### 1. What is the purpose of the Invisalign Gallery | GP Summit Case Shoot-out?

To recognize doctors who have demonstrated clinical excellence in Invisalign treatment through their treatment outcome submissions. To be eligible for consideration, treatments need to be submitted under one of the four theme categories listed below.

### 2. What types of cases can be submitted?

There are four theme categories for the 2021 GP Summit Case Shoot-out:

- ▶ Crowding/Spacing
- ▶ Deep bite/open bite
- ▶ Ortho restorative with Invisalign Go
- ▶ Ortho restorative with Invisalign (other or non-Invisalign Go)

Each case entry must be submitted in one of these four categories to qualify for the Summit Case Shoot-out competition. Entries that do not fit into at least one of these four categories (“Other”) are ineligible for Summit Case Shoot-out consideration, but may qualify for inclusion in the Invisalign Gallery publication.

### 3. Who can participate in this program?

GP doctors in North America (US and Canada).

### 4. How many entries can each doctor submit?

Each doctor can submit no more than 1 case per theme category (maximum of 4 total). Past years’ submissions, as well as previously published cases, are ineligible.

### 5. When do doctors need to submit their cases by?

The deadline for all entries is Saturday, May 15<sup>th</sup>, 2021. Late submissions will not be considered.

### 6. How do doctors submit an entry into the program for consideration?

All entries must be submitted online at <https://submit.invisaligngallery.com>. A comprehensive how-to guide is available for download to assist with the registration and case submission process.

### 7. What is required for each entry?

- Signed doctor release and patient release forms (available online).
- Completed treatment information via Invisalign Gallery Uploader online.
- Treatment case submissions are limited to Invisalign cases that used an iTero scanner for submitting the initial order, SmartTrack™ material with 1 week wear aligner changes, and two additional aligners or less.

- Treatment cases using auxiliaries (such as Accelerated Treatment Devices, braces, rapid palatal expanders, sectional fixed appliances, etc.) will **not be eligible**. Ancillary devices (e.g. elastics, TADs, etc.) may be used, but their use must be fully disclosed in the treatment summary report.
- Initial & final records:
  - Intraoral photos (anterior, buccals, and occlusals)
  - Extraoral photos (all submissions will be de-identified by Align)
  - Radiographs
  - Progress photos (if available)

#### **8. How will the Summit Case Shoot-out winner be determined?**

All submitted treatments will go through an anonymous online voting process by peer GP doctors to determine up to the top 100 highest scoring cases. Among the top Semifinalists, the four Entrants with the highest composite score in each theme category will be the four Finalists invited to present at the Invisalign GP Summit in October 2021. Finalists will be notified once all voting has ended. The overall Summit Case Shoot-out winner will be determined during the Invisalign Summit Case Shoot-out event.

#### **9. Who do I contact if I have additional questions?**
